## **Ministry Background**

The Missions & Evangelism ministry was formed in 2017 to encourage and inspire EEC to engage in missions and local evangelism. Its specific focus was on reaching out to the asylum seeker population in the area. In 2018 a Homework Club was organized as a platform for evangelism. Various training was provided to educate EEC to reach out to Muslims. Over the next 2 years, relationships with this community flourished and additional programs were implemented. Networks were also formed with churches and Christian NGO's to partner with to reach this target group with various services. Internally, through various initiatives, EEC saw increased engagement in outreach efforts. Relationships between church-sponsored missions and the congregation also grew.

## **Ministry Vision**

In the next 5 years, the hope for the ministry on an external level is to sustainably continue long term evangelistic efforts to the asylum seeker population through programs like the Homework Club, summer camp as well as home visitations. Internally, the goal is to encourage and train every EEC member to regularly engage in the work of evangelism with asylum seekers, through other contexts provided by the church or referred to by trusted ministry networks.
